PROFESSIONAL SUMMARY

Highly analytical Cybersecurity Professional and U.S. Military Veteran with a 100% accountability record for mission-critical hardware. Expertise in network security, threat intelligence, and virtualization (Proxmox/Linux). Proven ability to troubleshoot complex systems under pressure, transitioning a decade of operational excellence into a career in Cyber Defense and Incident Response.

SKILLS

- | | | |
|--------------------------|-----------------------|------------------------|
| • Cybersecurity research | • Complex Problems | • Technical Solutions |
| • Operating Systems | • Leadership | • Proxmox / Linux |
| • Microsoft Office 365 | • Wireshark / NMAP | • Azure Cloud Security |
| • Active Directory | • Python / HTML / CSS | • NIST Framework |

EXPERIENCE

Over The Road Truck Driver

August 2014 - November 2023

OTR Professional Driver | Multiple Companies, USA

- Spearheaded logistics and route optimization for timely delivery of critical materials, keeping a 100% safety record over 9 years.
- Managed digital logging devices (ELD) to ensure 100% compliance with FMCSA federal regulations, maintaining zero logging violations over 9 years of high-stakes data reporting.

Patriot Missile System Repairer

January 2008 - March 2010

United States Army, El Paso, TX

- Engineered technical solutions and performed quality control for the Patriot Missile System, maintaining 99.9% operational readiness.
- Managed 100% accountability for \$500,000 of sophisticated electronic hardware and diagnostic equipment.
- Interpreted 200+ technical schematics to isolate and repair faults in integrated radar and launching systems, reducing system downtime by 70% through rapid diagnostic analysis.

Engineer Equipment Mechanic

June 2003 - June 2007

United States Marine Corps, Camp Pendleton, CA

- Optimized operational readiness of 50+ heavy-duty assets by diagnosing faults in high-pressure hydraulic systems, ensuring 100% equipment availability for 2 mission-critical deployments.
- Standardized 15+ maintenance protocols in collaboration with cross-functional teams, resulting in a 20% reduction in equipment downtime and streamlined repair cycles.

EDUCATION

Bachelor of Science in Cybersecurity (B.S.)

March 2026

Full Sail University, Winter Park, FL

- **Certifications in Progress:** CompTIA Security+, CompTIA Network+, CompTIA Linux+, CompTIA, A+.

Associate of Science in Information Technology

February 2025

Full Sail University, Winter Park, FL

TECHNICAL PROJECTS

Enterprise Home Lab Environment | Proxmox & Linux Administration

November 2023 - Present

- Configured, secured 5+ Linux-based servers and Active Directory instances, implementing Least Privilege Access (LPA) to reduce attack surface by 90%.
- Performed weekly network audits using NMAP and Wireshark to analyze TCP/IP traffic, identifying and neutralizing 10+ simulated unauthorized access attempts within a Proxmox hypervisor environment.
